INVENTORY MANAGEMENT(CRUD)

Inventory Module

The inventory section stores and manages product information such as item name, stock code, quantity, supplier and pricing details.

Stock Inventory Page

ID	Item Name	Stock Code	Quantity	Purchase Price	Selling Price	Supplier	Date Received	Received By	Actions
21	Keyboard	5456789	300	Ksh 200.00	Ksh 250.00	Microsoft	2023-10-11	John	Edit Delete

CRUD OPERATIONS

The system implements CRUD operations:

1. Create -add new products.
2. Read -view inventory records.
3. Update -edit product information.
4. Delete -remove unwanted records.

Add Item

+ Add New Item to Inventory

Use this form to add a brand new product to your stock list.

Item Name:

Unique Stock Code (SKU):

Initial Stock Quantity:

Purchase Price (Cost):

Selling Price (Retail):

Supplier:

Figure 4:ADD ITEM

Delete function

Current Stock Inventory

Deleted view of all items, quantities, and pricing. Items with quantity less than or equal to 0 are flagged.

⚠ Error! Cannot delete item ID 21. It has 0 associated sales records! Please delete the associated sales records first.

ID	Item Name	Stock Code	Quantity	Purchase Price	Selling Price	Supplier	Date Received	Received By	Actions
21	Keyboard	5456789	300	Ksh 200.00	Ksh 250.00	Microsoft	2023-10-11	John	Edit Delete

Update

Figure 6:UPDATE

SALES MANAGEMENT

Record New Sale

The sales module allows users to record complete sales transactions into the system database.

Figure 7:Record New Sale

Sales Records

The system displays transaction history including quantity sold, sale amount, date and salesperson information.

Item ID	Item Name	Stock Code	Qty Sold	Sale Price (per item)	Total Sale	Date & Time	Sold By
00	Item 476	76764	4	Ksh 99,000.00	Ksh 400,000.00	2025-10-26 12:34	John
